Sir:

REMARKS

Applicants offer the following comments in response to the Examiner's Statement of Reasons for Allowance set forth on page 2 of the Notice of Allowability dated February 24, 2006.

The Examiner's Statement of Reasons for Allowance merely loosely paraphrases the recitations of claims 1, 3, 12 and 18 and, therefore, does not accurately restate the claimed invention. Accordingly, Applicants respectfully submit that each of the pending claims is patentable based on the recitations set forth therein and not based on any paraphrasing or addition of language that may have been made by the Examiner.
